Here's a little story for you. Long, long ago, a really long time ago, rabbits were able to fly. The fact that we count rabbits in Japanese (*ichiwa, niwa*) the same way we count birds is a holdover from that time. Rabbits, flapping their big ears across the vast, clear skies of ancient times...sounds like a horror story.

-Eiichiro Oda, 1999

Eiichiro Oda began his manga career at the age of 17, when his one-shot cowboy manga **Wanted!** won second place in the coveted Tezuka manga awards. Oda went on to work as an assistant to some of the biggest manga artists in the industry, including Nobuhiro Watsuki, before winning the Hop Step Award for new artists. His pirate adventure **One Piece**, which debuted in **Weekly Shonen Jump** in 1997, quickly became one of the most popular manga in Japan.

I WON'T DIE

お だ え い ち ろ う
尾田栄一郎

EIICHIRO ODA

Luffy and his crew visit the oceangoing restaurant Baratie, where they meet and befriend Sanji, the sous-chef. But the powerful and ruthless Don Krieg arrives with his pirates and declares that he wants Baratie for himself! So begins a battle royale for the restaurant ship. Sanji vows to defend the ship with his life, but when Chef Zeff is taken hostage, the situation turns desperate! Everyone wonders why Sanji is so determined to defend the ship, until he reveals a secret from the past: when Sanji was a young apprentice cook, he and Zeff (then known as "Red-Leg" Zeff, the pirate) were swept overboard by a sudden storm and cast upon a rock in the ocean! Because Sanji shared Zeff's dream, the pirate gave the boy all the food he had and ate his own leg to survive.

Nami
A thief who specializes in robbing pirates. Nami hates pirates, but Luffy convinced her to join his crew as navigator.

Roronoa Zoro
A former bounty hunter and master of the "three-sword" fighting style (one in each hand and one in his mouth!).

Sanji
A compassionate cook (and ladies' man) whose dream is to find the legendary sea, the "All Blue."

Don Krieg
Commander of the Pirate Armada.

Gin

Usopp
The newest addition to Luffy's crew, Usopp's known for his tall tales, but he has a way with a slingshot and a heart of gold.

"Red-Haired" Shanks
A pirate captain who saved the young Luffy's life and inspired him to be a pirate.

Chef Zeff

Monkey D. Luffy
Boundlessly optimistic and able to stretch like rubber, he is determined to become King of the Pirates.

THE STORY OF ONE PIECE

Volume 8

Monkey D. Luffy started out as just a kid with a dream—and that dream was to become the greatest pirate in history! Stirred by the tales of pirate "Red-Haired" Shanks, Luffy vowed to become a pirate himself. That was before the enchanted Devil Fruit gave Luffy the power to stretch like rubber, at the cost of being unable to swim—a serious handicap for an aspiring sea dog. Undeterred, Luffy set out to sea, and recruited some crewmates: lying sharpshooter Usopp, master swordsman Zoro and treasure-hunting thief Nami.

Reader: Greetings. I am the earthalien living in the house where Usopp's father Yasopp's friend's brother's girlfriend used to live.

*Earthalien is someone who is half earthling and half alien.

Oda: Really? Question Corner is starting!! (Doom)

Q: On both sides of the skull on Don Krieg's pirate flag, there are hourglasses symbolizing the threat to his enemies, but were hourglasses ever really used like that?

A: There really were Jolly Roger flags with hourglasses on them. They symbolized the prey's appointment with death, basically: "Your time is running out!"

Q: Oda Sensei, since Luffy is a rubber man, do **all** of his body parts stretch?

A: Yes, everything stretches.

Q: A question. How many g/cm³ is Sanji's kick strength? Please calculate to two decimal points and let me know.

A: To be frank, measurement is not possible. You know that game at the arcades where you can measure your kick strength? If, for example, Sanji did that, the whole machine would go flying out of the building. But if I had to put it into units, I'd say 21 Bats--the energy required to break 21 wooden Bats with one kick.

Q: Hey, Ei-chan!! Have you been working on *One Piece* like you're supposed to? Draw your best!! All right, here's a question for you: which *One Piece* characters have the highest and lowest IQs?!! Okay, that's it for today.

A: I'll tell you, but this only applies to the characters that have appeared so far. The highest IQ belongs to Shanks' first mate, Benn Beckman--his unrivaled intelligence and Brawn make him an excellent aid for Shanks. Next highest is probably Captain Kuro, then Nami. As for the characters with the lowest IQs, I can't decide who is number one--there are just too many idiots.

Q: Oda Sensei, is your house really made of cardboard?
(My friend said it is.)

A: Yes. Yet through rain and wind and snow I persevere, drawing manga. But it's okay. The ink I use is waterproof!!
(Note: Good children should not believe me!)

Q: What is the cape-like thing that Butchie of the Meowban Brothers wears? Is it a futon?

A: It's a **kotatsu-buton*, to be precise. He is a cat, after all.
*A kotatsu is a low, heated table that has a skirt-like quilt (futon or buton) that keeps people's legs warm when they sit at it. cats love to sleep under them on cold days.

Q: Is Luffy's pose on the cover of volume 3 Ken Shimura's* "Aiiin"?

A: Hey, you're right!! It's "Aiiin"!! You nailed it!!
*Ken Shimura is a famous Japanese comedian.

Q: Does Sanji like to say crap?

A: He loves to.

Q: I don't understand the marine rank system very well. Is a captain the highest position? Is Koby at Marine Headquarters or at a branch office? How high up is Lt. Fullbody?

A: **(WORLD GOVERNMENT) COMMANDER IN CHIEF**
(HIGHER THAN ANY MARINE RANK)

FLEET ADMIRAL
(HEAD OF THE MARINES)

ADMIRAL
(GOVERNOR-GENERAL)

VICE ADMIRAL, REAR ADMIRAL, COMMODORE

(COMMISSIONED MARINE OFFICERS)

CAPTAIN, COMMANDER, LIEUTENANT COMMANDER

LIEUTENANT, LIEUTENANT JUNIOR GRADE, ENSIGN

MARINES

WARRANT OFFICER

MASTER CHIEF PETTY OFFICER, CHIEF PETTY OFFICER, PETTY OFFICER

SEAMAN, SEAMAN APPRENTICE, SEAMAN RECRUIT

CHORE BOY

The ranks work something like this, but this only holds true for the navy in the world of One Piece. Koby is at Branch 153. The branches scattered around the world are commanded by officers with a rank higher than captain. Maybe someday Koby will be an officer.

Q: In volume 5, page 159 panel 3, there's a fat guy. Did he steal some of that girl's food?

A: Very perceptive!! Wow!! That's Mr. Motzel, the gourmand. Yes, he filched some of her food. Afterward, they got into a fight. The girl is Mr. Motzel's daughter.

Q: To become a **girl** who is as cool and strong as Zoro, what should I do?

A: Hmm...a girl? Let's see... First of all, do squats!!
And eat sardines to strengthen your mental powers!!

Q: Oda Sensei, hello, or rather, *ni hao*!! I used my whole brain to compose Luffy's song. Please read it, dance, and cry!

First verse: Gum^{x3} Gum Ya-a-ay
 Am I a Gum-Gum Person, or a Rubber Man?
 Gum^{x3} Gum Yahoo

Second verse: Gum^{x3} Gum Stretch
 I'm the King of the Pirates, I'm amazing!!
 (Gum^{x3} Gum)^{x2} Amooon

What do you think? Do I win? Shall I go? Well, here I go!!

A: Yay!! Yes, GO!! GO far!!

Q: Is Luffy natural or synthetic rubber? This is an inquiry from the Meteorological Agency (with cooperation from the Ministry of Education).

A: Natural ~~dumb~~ rubber.

Q: When my friends and I talk about *One Piece*, I like Shanks, Friend S. likes Zoro, and Friend I. likes Luffy, but R. likes Buggy and Jango. Should he see a doctor?

A: One would have to be seriously ill to like those two. Please tell him to rest quietly at home and drink plenty of liquids. And tell him that if he perseveres, good things will come to him...

Q: What does the D in Monkey D. Luffy stand for? Is it Donburi (a bowl of rice with topping)? Daibutsu (a statue of the Great Buddha)? What?! I gotta know!!

A: I get this question all the time.

But I can't answer it...yet. For now, don't worry about it. Just read it as "D."

Q: What's the relationship between pirates and rum?
In books, pirates and rum are inseparable.

A: Not just pirates and rum, But all seafarers and rum. The short story is that rum was cheap, so the British navy in pirate times switched from Brandy to rum for the sailors' Grog rations, which led to hard-drinking mariners being associated with rum. By the way, the reason there was so much alcohol aboard the ships was that on long sea voyages, water would go bad.

Q: The other night, I met an inhabitant of the planet Gum-Gum. I asked him how long his arms stretched, and he said, "705 Poison Gum-Gums." How long is 705 Poison Gum-Gums?

A: You met a Gum-Gummian!! Amazing!! And lucky!! A "Poison Gum-Gum" is a unit equal to ten Gum-Gums. So that's 7,050 Gum-Gums!! We're talking cosmic distances!! But be warned--of all the races in the universe, the Gum-Gummians are the most likely to say ridiculous things.

ちよつとした話がある。
うさぎは昔ー。遠い昔ー。
空を飛べたらしい。
うさぎの事を今でも
一羽、二羽って数えるのは、
そのなごりだ。ー太古の、
澄んだ大空を、あの大きな耳で
自由にはばたくうさぎ達。
：そんなオカルト話。
